UPDATE #33

ELEPHANT TRUNK PROJECT CONTINUES WITH DAYTIME WORK ONLY—NO MORE OVERNIGHT CLOSURES FOR NOW ON HIGHWAY 1 NEAR THE SAN LUIS OBISPO/MONTEREY COUNTY LINE

SAN LUIS OBISPO/MONTEREY COUNTIES – A project to construct a retaining wall on Highway 1 in northern San Luis Obispo/southern Monterey Counties is underway. It will serve as a permanent restoration effort in this area known for major slides.

Daytime roadwork continues with daytime work only and takes place Monday through Friday from 7 am to 5 pm. Construction next week will include the placement of lagging and ground anchors. All local businesses along the coast will remain open during this project.

Motorists will encounter one-way reversing traffic control via a temporary traffic signal 24/7 except during overnight full closures. Traffic delays during the one-way traffic control will be 5-10 minutes.

The contractor for this \$9.5 million project is John Madonna Construction of San Luis Obispo, CA. This project is expected to be completed in winter 2016-17.

NEWS RELEASE

UPDATE #19

HIGHWAY 1/COW CLIFFS VIADUCT PROJECT CONTINUES

MONTEREY COUNTY – A primarily daytime ½-mile project to construct a viaduct continues along Hwy. 1 near Lucia from the Big Creek Bridge to south of Dolan Creek Bridge, 18 miles south of Big Sur.

Cow Cliffs will have daytime roadwork next week consisting of forms and rebar being placed for the bent caps and abutments of stage 1. Drilling and placement of piles for the columns and abutments for stage 1 (ocean side) was completed this month. Up to 10-minute holds may be in effect to ensure the safe delivery of materials. Hwy. 1 at Cow Cliffs will have one-way signalized traffic control 24/7, which is already in place. However, full overnight closures will not take place until approximately December.

The project consists of constructing a permanent viaduct, about five miles north of Lucia and 18 miles south of Big Sur. Daily roadwork schedules are subject to change due to weather conditions and other factors so stay tuned for weekly updates. **ALL BUSINESSES ALONG THE BIG SUR COAST WILL REMAIN OPEN.**

In order to minimize traffic impact as part of the project, there will be advance notification for motorists, residents and businesses via a traffic hotline, electronic message signs and email updates.

The contractor for this \$3.9 million project is RGW Construction Inc. of Livermore, CA. Completion is scheduled for fall of 2016, weather permitting.
